

LEADERSHIP

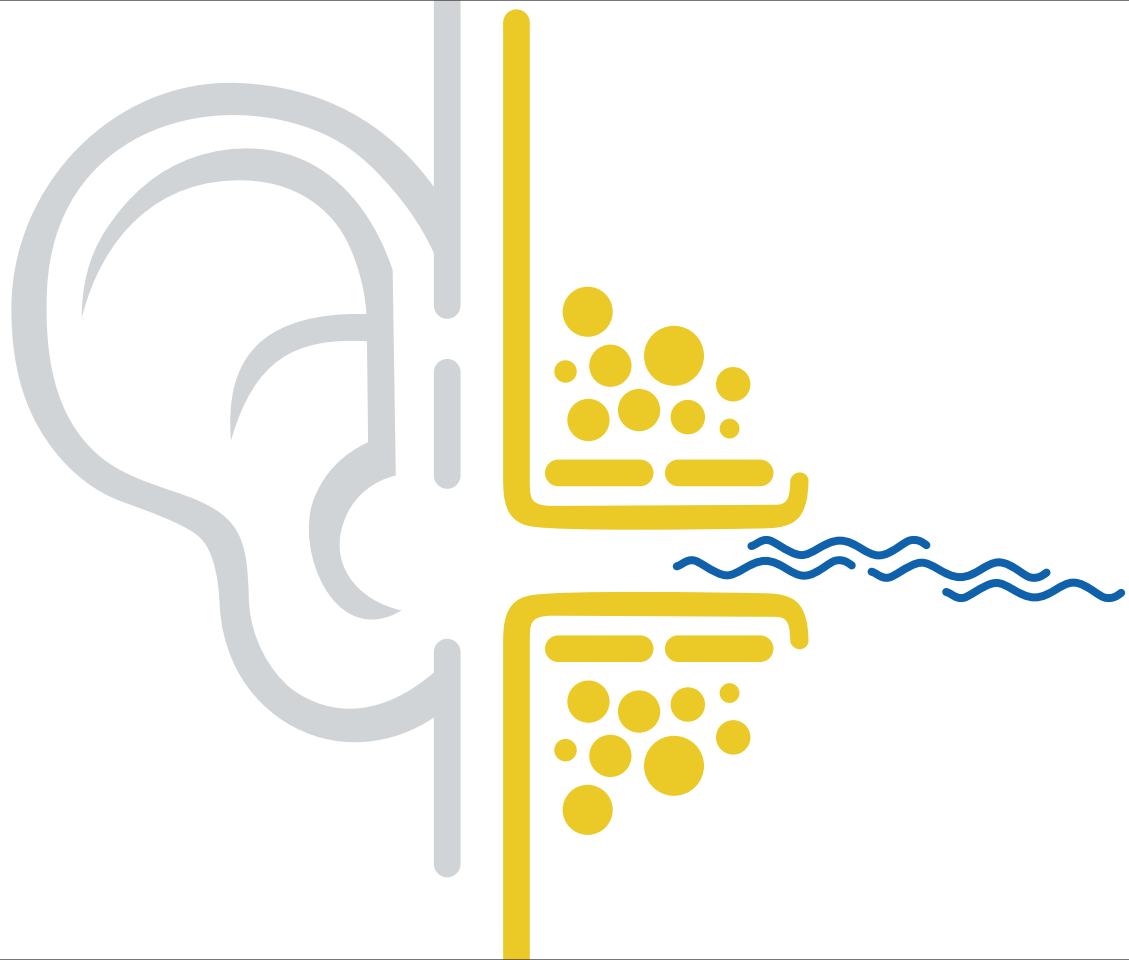

Leadership
is about...

Wearing reading
glasses and having
20-20 Vision
of the future

Black, White and the
shades in between

Hearing the silent
knock of
Opportunities

Turning any year
into a **leap year**

Level playing
field and finding
new angles on it

The cross roads and
new turns of life and
**never losing
your way**

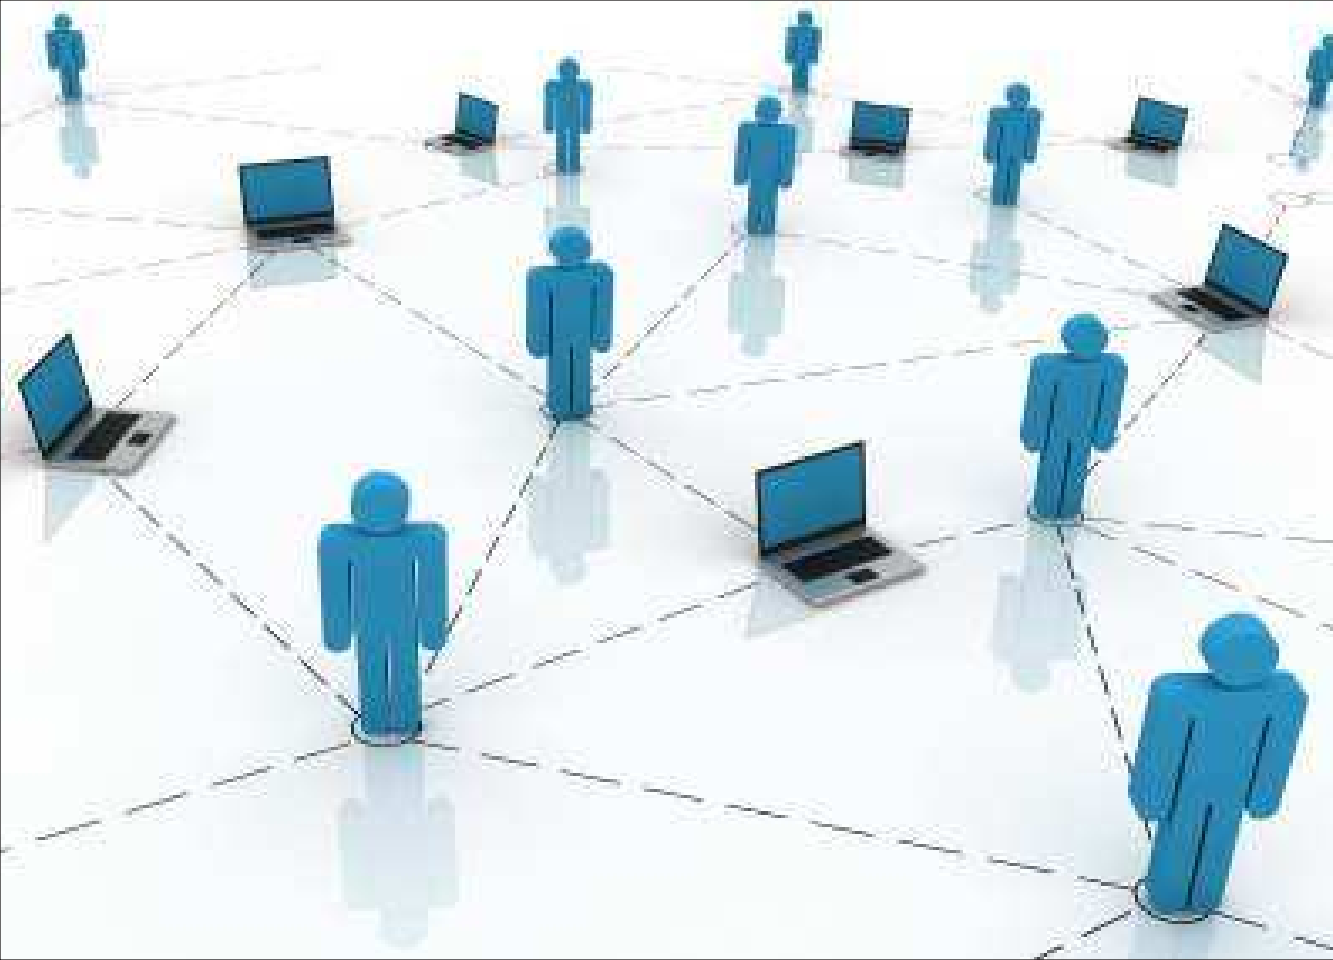

Travelling light
with no mental
baggage

The **big picture** and
small details

Giving credit and
taking the **blame**

Realising that the shortest distance between two points is a learning curve

Success, failures and
being **unaffected** by
either

Being **disciplined** and
breaking the rules

Learning
from history but not
being burdened by it

Quick decisions and lingering dreams

Ironies of calm in an
age of turbulence

Values that go beyond
PE Ratios and **EBIDTA**
Margins
